## The Problem We Solve

### Without Penn Tech

- Pay \$3,000-5,000 upfront for a website
- Separate hosting bill (\$20-50/month)
- Separate IT support (hourly rates)
- Multiple vendors to manage
- No one accountable when things break
- Website gets outdated and neglected

### With Penn Tech

- \$0 upfront for professional website
- Hosting included in monthly package
- IT support hours included
- One vendor, one invoice
- Single point of accountability
- Website stays current and maintained

### The Bottom Line

Get a professional website AND ongoing IT support for less than most businesses pay for a website alone. One predictable monthly cost, no surprises.

## Getting Started Is Easy

1

### Free Consultation

We meet to discuss your business, website needs, and IT challenges. No obligation, no pressure—just a genuine conversation about how we can help.

2

### Choose Your Package

Select the package that fits your needs and budget. We'll customize the details and prepare your service agreement.

3

### Website Design & Build

We design your new website with your input every step of the way. Most sites launch within 2-4 weeks.

4

### Launch & Ongoing Support

Your website goes live and your IT support begins. We handle all the technical details so you can focus on running your business.

### Your Website, Your Property

After completing your 12-month term, you own your website outright. No tricks, no hidden clauses. We earn your continued business by providing great service—not by holding your website hostage.

---

## Frequently Asked Questions

### What happens if I cancel before 12 months?

Early cancellation requires payment of the remaining website build value. For example, if you cancel the Business package at month 6, you would owe the remaining \$1,750 website value (50% of \$3,500).

### Do I own my website?

Yes. After completing your 12-month term, you own your website outright. You can continue with our hosting/support or migrate elsewhere. We'll provide all files and assist with any transition.

### What if I need IT support beyond the website?

---

We offer full IT services including network setup, security systems, VoIP phones, and more. Business+ clients receive discounted rates on all IT services. Contact us for a custom quote.

---

## Frequently Asked Questions (Continued)

### Can I upgrade my package later?

Absolutely. You can upgrade at any time and we'll prorate the difference. Downgrades take effect at your next renewal date.

### How long does the website take to build?

Most websites are completed within 2-4 weeks from kickoff. Complex sites may take longer. You'll have full input throughout the design process.

### What about my existing website?

We can migrate content from your existing site or start fresh—your choice. We'll ensure no disruption to your online presence during the transition.

---

## Ready to Get Started?

### Schedule Your Free Consultation

Let's discuss how Penn Tech Solutions can give your business a professional online presence and reliable IT support—all for one predictable monthly cost.
